How To Repair a Ball Mark

A few extra seconds is all it takes to keep the putting greens looking and playing their best.

CHOOSE WISELY

A ball mark repair tool is recommended, but other pointed devices can be used.

PUSH DON'T PRY

Starting from the back and sides, gently push & stretch the turf to the center of the mark.

WORK AROUND

Work around the ball mark until it's filled in. Avoid lifting & twisting the turf harshly.

FINAL TOUCH

Use your putter to lightly tap down the mark. Fix other marks in addition to yours.
